Customer Name : **WOLF'S MOUNTAIN**

Date : **22 June 2018**

Amount in ppb	WOLF'S MOUNTAIN Risk	LOW Risk	MEDIUM Risk	HIGH Risk
Aflatoxin (B1)	0	5	10	20
Aflatoxins (B1+B2+G1+G2)	0	5	10	20
Ochratoxins (A+B)	4	10	20	30
Type B Trichothecenes ^{*(1)}	0	100	250	500
Type A Trichothecenes ^{*(2)}	3	20	30	40
Fumonisin (B1+B2+B3)	239	500	1 000	1 500
Zearalenone Group	0	25	50	75
Fusaric Acid	0	1 000	2 000	3 000
Other Penicillium Mycotoxins ^{*(3)}	5	40	70	100
Other Aspergillus Mycotoxins ^{*(4)}	0	40	60	80
Ergot Toxins	0	250	500	1 000

^{*(1)} Type B Trichothecenes = Deoxynivalenol (DON) + 15-acetyl DON + 3-acetyl DON + Fusarenon X + Nivalenol + DON-3-Glucoside

^{*(2)} Type A Trichothecenes = T-2 + HT-2 + Diacetoxyscirpenol (DAS) + Neosolaniol

^{*(3)} Penicillium mycotoxins = Patulin + Penicillic acid + Roquefortine C + Mycophenolic acid + Wortmannin

^{*(4)} Aspergillus mycotoxins = Gliotoxin + Sterigmatocystin + Verruculogen

WHAT OTHER BRAND CERTIFIES THE QUALITY OF ITS FOOD AS MUCH AS WOLF'S MOUNTAIN DOES ?

WOLF'S MOUNTAIN feeds the man's best friends reducing negative effects on health and performance. Tested and certified by independant laboratory without risk of pesticides and mycotoxins.

PROTECT YOUR PET FROM HEALTH RISK OF TOXICITY

Do you know that **most manufacturers do not test their products** against pesticides and mycotoxins ?
